Check out the O's updated article..getting better but still leads with funding cuts. Joelle talked to her this afternoon and it looks like she's talked to Nina too.

It seems that NWEA's own press release was the source for the inexplicable \$1.3M figure and some of the other quotes in the O. See:

Still not sure where the O got the wildly incorrect figure of only 10 states with approved coastal nonpoint programs...

They've actually upped it to an inexplicable \$1.3M figure...

UGH.

After all that effort the Oregonian is still leading with 'the state will lose \$1.2M in penalties.'

All,

Here's the story from the AP reporter, but it's so short, I don't know if there's a longer version that might get published somewhere else.

<http://www.sfchronicle.com/news/science/article/Regulators-Oregon-logging-rules-don-t-protect-6051532.php>

<http://www.khq.com/story/27985991/regulators-oregon-logging-rules-dont-protect-clean-water>

And here's one from the Oregonian, with a huge factual error in the last paragraph, and arguably smaller errors throughout:

[http://www.oregonlive.com/environment/index.ssf/2015/01/feds\\_reject\\_oregons\\_coastal\\_po.html](http://www.oregonlive.com/environment/index.ssf/2015/01/feds_reject_oregons_coastal_po.html)

“To date - 19 years past the deadline - 10 states' plans have received approval.”

Actually, 22 states & territories have received full approval.
